

Become a member of OPTA

The company taking initiative for OPTA (Organic Processing and Trade Association Europe e.V.) like to takes responsibility for a sustainable food system and invites you to become member.

Why OPTA?

Organic market is fast growing and the organic sector has ambitious goals. The European umbrella IFOAM EU has set the ambition to become the main farming system in 2030 with 50% share of the available agricultural area in the EU. We, a leading group of organic processing and trade companies fully support this ambition. Therefore we like to take more responsibility. Because of that we founded OPTA in Milano in June 2017 in order to improve our engagement and impact.

Contact us: info@opta-eu.org | www.opta-eu.org

OPTA has the following aims:

Take responsibility for the specific needs of the international organic trade and processing companies.

Support the international organic trade and processing companies in their specific needs.

Create an energetic and inspiring network of leading organic companies.

Strengthen the quality and innovation in organic.

Empower the organic processing and trading companies together with the organic movement to make Europe organic.

Empower the cooperation of organic food chain and facilitate the cooperation between organic farmers and organic trade and processing, for example with IFOAM EU.
